#### MRS. HERMANN IN CUSTODY

The Lexow Committee Have Secured This Important Witness.

CAPTURED THROUGH INTRIGUE

Representatives of the Committee Took Charge of Her as Soon as She Was Discharged-Excused for the Day, but Will Testify Later-More Damaging Testimony.

New York, Nov. 1 .- To-day's sensation in onnection with the Lexow investigation was the appearance of Mrs. Hermann on the stand. This was not sensational on account of testimony, for the witness was excused immediately after saying she appeared of her own free will, but because of the intrigue indulged in by the representatives of the committee to secure Mrs. Hermann's pres-

was taken to the ferry in a carriage.

There an officer appeared and joined them armed with a warrant charging Mrs. Hermann with criminal contempt of court, which was to be served in case she changed hermind. Senator Daly, the witness counsel, knew nothing of her departure from the jail, and said an hour before she left that she would never appear before the committee.

On appearing before the committee Mrs. Hermann was called to the stand. She was tastefully dressed.

"You came here of your own free will?

"You came here of your own free will? asked Mr. Goff.

"People in New Jersey said we were trying to kidnap you, and threatened to indict our Igents."
Then Mr. Goff held a lengthy whispered consultation with the committee, and it was decided to excuse Mrs. Hermann for the day, she was placed for the night in the custody of the sergeant-nt-arms.

Specific Charges Against the Management of the Maryland House of Correction and Investigation Demanded.

A strong protest against the treatment of the three Coxevices, O'Neill, Horst, and Hartman, who were detained in the Maryland House of Correction while their comrades were permitted to go free many weeks ago, has been sent by their attorney, J. H. Ralston, of this city, to Gov. Brown.

Below are presented several extracts "O'Nelll and Horst inform me that in viclation of the rules of that institution they were repeatedly refused pen and saper and com-munication with the outside world, although money was held to their credit. THEIR SALARIES TOO SMALL.

Capitol Hill Citizens Think Teachers in Primary Grades of the Public Schools Are Underpaid 100 Per Cent

It is the opinion of many members of the East Washington Citizen's Association that salaries now paid to public school teachers of the District in the primary grade should be increased 100 per cent, and that there should be a material advance in the amount of compensation received by the supervising principals and superintendents. This fact was brought out in the discussion of a report of the committee on schools, submitted at a meeting of the association in Baum's Hall

Chairman Robert Hill submitted the com mittee's report and spoke of the members' visits to the several school buildings in the southeast. He proceeded to talk at length of the qualifications which should be possessed by first-class instructors, and said the teacher of the first grade has more responsibility than those of other grades and should be thoroughly competent to perform the cuties of that position. Still they were ex-pected to do more work for less money than teachers in any other city of the same popu-

The committee recommended that the salaries of first grade teachers be increased 100 per cent., of the supervising principals 50 per cent., and the superintendents 20 per cent. The srection of two gymnistums for the use of scholars was recommended, one in the rear of the Wallach building and the other rear of the wanted summing and the original adjoining the Van Buren school, in Anacostia. A third recommendation favored better ventilation of upper stories of buildings more than two stories in height. There was a engthy discussion of these recommendations

by the gentlemen of the association, ar, st. I went thought the cracing of trades in the public schools should be made compulsory on the part of scholars in every grade. Dr. W. A. Croffutt was opposed to high schools, and thought the money expended for their maintenance could be more profitably used in the establishment of more lower grade schools. Only a favored few pupils ever enter the high school, and the intitution is used almost entirely as an en-

trance to colleges and universities.

Mr. Weller said if the board of school trustess had not falled to do their duty it would not be necessary for the committee on schools to visit these schools. The recommenda-tions were also favored by Messrs, Jeffords, Sperry, Babson and Girouard, but Mr. Hai-lam objected to such specific propositions and on motion of Mr. Sperry the subject was referred back to the committee for further

getting the Commissioners to incorporate in their estimates on appropriation of \$30,000 for the municipal collection of ashes. Before the meeting adjourned the following com-mittees were appointed by the President for the ensuing year, Executive committee—J. W. Babson, chair-

## LABOR MEN TO THE RESCUE

Knights Promise to Support the Journeymen Bakers' Organization.

REDUCTION TALK MISLEADING

Meeting of the District Assembly and a Full Discussion of the Difficulty-Demand for Bread Falls Off in Winter-Steps to Be Taken Next Saturday for Self-protection.

The District Assembly of the Knights of Labor held a meeting at Rechabites' Hall, Four-and-a-half street and Pennsylvania avenue, last night. The bakers were well represented and the question of action in regard to the prospective reduction of pay and discharge of men in connection with the lowering of the price of bread was thoroughly

details, but there is every reason to believe that the Knights promised to give substantial support to the bakers' organization in any efforts they may find it necessary to take to protect their members.

The journeymen bakers claim that the talk of a reduction in wages and in force being necessary on account of the lower price of bread is largely misleading. In the first place, as already stated, some of the baxers are hurt by having long contracts for flour at prices higher than now prevailing. Then the falling of in trade is due to the usual re-turn to home baking which accompanies cool weather. In summer when hundreds of families cook with oil and gas stoves baking is out of the question and bakers brend is

It would cost more to start up the coal range and bake bread than the extra cost of bakers' bread, to say nothing of the great discomfort from heating up the house and the hot work of baking. But in winter the coal fire is going anyhow, and baking makes no extra expense and is a pleasant occupa-tion. Also, the coming of buckwheat makes a big difference in the demand for bread om wealthy homes.

Always in winter the sales from the baker-

les are thousands of loaves under the sammer sales. But herstofore the employers have kept men on the pay rolls, just as is done in slack seasons in every other line. This year the nosses seem inclined to take advantage of the agitation of the bread question to cut down expenses and make profits for the year a little better, and some of them to settle old

to pay their initiation was a reason to look at their cases carefully. As to bakers who were out of work when Schneider wanted men being unfulfor service they deny the boss' statement. Assembly No. 2389, Knights of Labor, composed of 200 of the best bakers in the city, will meet at Rechabite Hall Saturday evening, and action will be taken which is expected to stay the proposed cut in pay and to hold the union men in their places against such treatment as Meinberg is now according than them by employing non-union men.

Irain Robbers Made a Poor Haul on Northern Mississippi Railrond. MEMPHIS, Tenn., Nov. 1 .- Supt. Agee, of the Southern Express Company, and Supt. Sullivan, of the Kansas City, Memphis and Birmingham Railroad, have advices from New Albany, Miss., stating that the eastbound passenger train on that line was held up a half mile east of New Albany at 12 o'clock

oreing him to stop the train. They then made him accompany them back to the express car and call out the messenger.

When the messenger appeared the robbers covered him with their weapons and ordered him to give up the valuables in the car. The
